„**HS DRIVE TEC IS YOUR
ONE-STOP-RESSOURCE FOR
ALL AREAS OF INDUSTRIAL
PRODUCTION.**“

MR. HEIKO HÖSE is a specialist in Drive Technology specifically for the high-speed industry and has extensive twenty years of in-depth knowledge of mechanical and digital drive technology as well as control technology. After his electrical engineering studies, he worked as the responsible key account manager and successfully looked after the most important, predominantly German machine manufacturers for 17 years.

MR. MALTE SCHNEPEL is a recognized expert in the field of CNC-Machines and Motor-Spindle Technology. Important positions in his now more than 30-year career include managerial positions at leading machine manufacturers and as Managing Director of German and American companies in the motor-spindle business.

ELECTRIC MOTORS, MOTOR-SPINDLES, DRIVE SYSTEMS & MACHINE COMPONENTS

- HS Drive TeC offers the complete Solution for any Application.

Wherever a chip is generated in industrial production, HS Drive TeC has the complete solution package including a processing motor, a drive unit designed and programmed for this purpose and a full set of accessories.

solution package.**

THE HS DRIVE TEC-SERVICE

Maximum Economic Efficiency through Prevention and the fastest Turnaround.

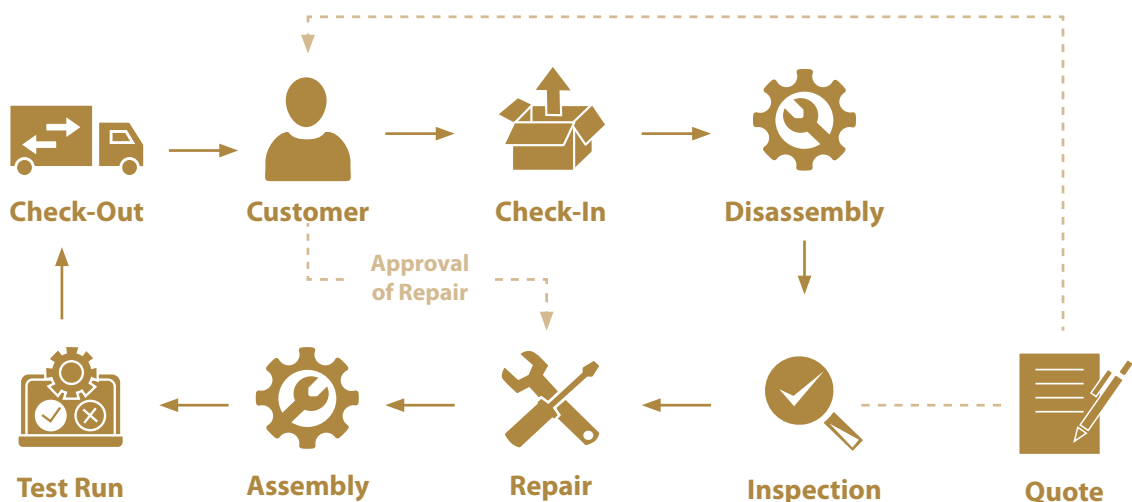

After an on-site audit of spindles and machinery, the HS Drive TeC specialists are able to identify boring units, electric spindles and motor spindles with needed spare parts of production-critical machines. This preventive measure enables us to guarantee quick repairs with high quality standards.

These specially tailored customer maintenance and repair service concepts avoid long machine downtime in your production.

Your extensive Customer Benefit provided by our Specialists

- Maximization of machine uptime
- Minimization of high maintenance costs
- Reduction of high costs for new spindles through fast and professional repair service
- 24/7 Round-the-clock emergency service
- 12 months warranty after delivery
- Safe storage and safekeeping of your spindle in our spindle hotel
- Your spindle receives regular functional tests and offers a guaranteed operational readiness
- Exchange program with spare spindles as a quick solution for production reliability

FAST AND PROFESSIONAL REPAIR SERVICE AVAILABLE AT ANY TIME

We are your Spindle Repair Experts!

Leave the complex repair and service of motor-spindles and boring units to stated experts as the high level of precision requires a qualified and skilled team of HS Drive TeC technicians.

HIGH SPEED IN PERFECTION

- Qualitative Customer Advice and Drive Dimensioning & Technical Support during Installation

HS Drive TeC supplies a complete range of Electrical and Electro-Mechanical Drive Systems for a wide variety of industries.

WHAT TO EXPECT?

- Two decades of experience in drive technology for the high-speed, plastic injection molding and regenerative systems
- Qualitative advice & drive technology design
- Professionally designed system solutions with innovative and state-of-the-art drive technology

YOUR ADVANTAGE

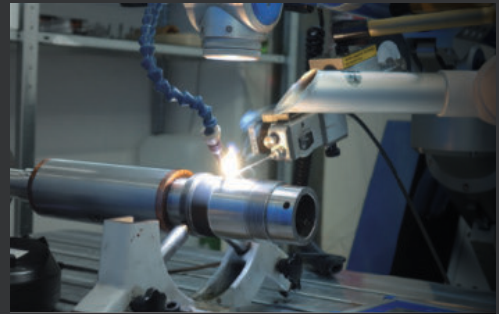

- Coordinated spindle/inverter packages for quick and uncomplicated installation
- Best modulation quality thanks to precise coordination between the spindle and drive actuators
- On site installation services and support

YOUR ONE STOP RESOURCE

... for a long-term success

**OUR QUALIFIED REPAIR SERVICE FOR ELECTRIC MOTORS,
MOTOR SPINDLES AND BORING UNITS OF ALL BRANDS,
TYPES AND DAMAGES IS READY
AND AVAILABLE FOR YOU AT ANY TIME.**
